

**NAATS HQ E-Mail Update Vol. 5 #62**  
**October 03, 2005**

Just got off the phone with the attorneys and they have filed an appeal with the court of appeals, as soon as they get it over to me, I'll forward it out. The appeal will go before a 3 judge panel and should be decided by later this afternoon. The panel has been presented with 9 central exhibits that are key and a 15 page brief. The appeals court has been expecting an appeal on this issue, the agency had been in contact with them last week to find out procedures.

Wally will have another update out shortly, we know the issues that are important and will do everything we can to take care of people.
